

CHAPTER 8 · PARKING, LOADING AND UNLOADING SPACES

8.1 General

This section deals with general parking guidelines.

8.2 Parking Requirements

The parking spaces shall provide as per Regulation 6.3.

8.2.1 Residential Buildings

(a) Buildings up to 15m in height shall have surface parking.

(b) Buildings above 15m in height shall have:

- (i) Fire safety provisions.
- (ii) Adequate water supply.

Provided that in areas where space is constrained, this may be permitted.

Note: Stack parking may be permitted subject to provisions of Regulation 8.1.

For more details, refer Table 8-B.

8.2.2 Commercial Buildings

Commercial buildings must comply with Table 8-B.

Table 8-B

Occupancy	Floor Area	Required ECS
Residential	100 sq.m	1
Commercial	100 sq.m	2

8.3 Future expansion

This is a test section on page 3.
